Travel Ski Team:

(Advanced / Expert)

The Travel Ski Team is a competitive program where our athletes will be expected to ski at high speeds and more difficult terrain. Due to this higher skill level and terrain difficulty all athletes must be advanced skiers with a membership in PARA and USSA competitors license. Members will travel to other ski resorts and compete in USSA Ski Racing events on the weekends.

Mountain Explorers:

(Advanced Intermediate / Expert)

The Mountain Explorers program is for the skier who is interested in improving their skill, while skiing in a supervised group. This non-travel program may compete in non-USSA events hosted and Montage Mountain Resorts. However, this is a skilled based program and not competitive by design. Skier should be able to ski blue square terrain, parallel, and black diamond terrain in good snow conditions.
